

AquaCera carbon systems
Are designed to protect you
And your family from a
Wide range of Contaminants*

Acrylamide	Chlorotoluene	Hexachlorobenzene
Aldicarb	Chromium	Lead
Aldrin	Copper	Lindane
Aluminum	Coliforms	Mercury
Asbestos	2,4-D	Nethoxychlor
Atrazine	Dibromochloromethane	Nethylenechloride
Alpha-BHC	Dibromomethane	Polychlorinated Bypheny
Beta-BHCC	Dibromochloropropane	Pentachlorophenol
Delta-BHC	1,2-Dibromo-3-Chloropropane	Selenium
Benzopyrene	Dichlorobenzene	Silver
Benzoperylene	Dichloromethane	Simazine
Benzofloranthene	Dichlorobromomethane	Styrene
Bromobenzene	1,2-Dichloroethane	Tetrachloroethylene
Bromodichloromethane	1,1-Dichloroethane	1,1,2,2-Tetrachloroethane
Bromothane	1,1-Dichloroethylene	Toluene
Bromochloroacetonitrite	1,1-Dichloropropane	Toxaphene
Bromoform	1,3-Dichloropropane	1,1,1-Trichloroethane
Bromomethane	Trans 1, 2-Dichloropropane	1,1,2-Trichloroethane
Cadmium	Cis 1, 2-Dichloroethylene	Trichloroethylene
Carbonfuran	2,2-Dichloropropane	1,2,4-Trichlorobenzene
Carbontetrachloride	1,2,4-Dichloropropane	2,4,6-Trichlorophenol
Chloramine	2,4,5-TP	1,2,3-Trichloropropane
Chlordane	Dieldrin	Vinyl Chloride
Chlorine	Diquat	Xylene
Chlorine Dioxide	Dioxin	Zinc
Chlorobenzene	DDT	
Chlorodibromomethane	Endrin	
Chloropicrin	Epichlorohydrin	
Chloroform	Ethylbenzene	
Chlorophenol	Ethylenedibromide/EDB	
Chloromethane	Heptachlor	
	Heptachlor Epoxide	
	Hexachlorocyclopentadiene	

*The above list comprises compounds that are known to be reduced/removed by the components/construction of the AquaCera carbon filters.
Contaminant removal determined by type of carbon filter specified.

You and your family deserve safer, better-tasting water, don't you agree?
